The Higher Education Policy Commission in West Virginia has established a policy, which requires entering students to achieve certain test scores prior to being able to enter college level English and math courses.

If you have achieved, or will achieve, one of the above scores, you will be enrolled in an Integrated section of English 101, with additional enrichment that a traditional English 101 course.

Before being able to register for a college level mathematics course, students must achieve a score of:
