

DRAFT (6)
WEST LIBERTY UNIVERSITY BOARD OF GOVERNORS

POLICY 47: TOBACCO USE AND GUIDELINES
(Revised March, 2012)

STATEMENT:

West Liberty University has a responsibility to its employees and students to provide a safe and healthful environment. Research findings show that smoking and secondhand smoke constitute a significant health hazard. In addition to direct health hazards, smoking contributes to institutional costs associated with employee absenteeism, health care, and medical insurance. The United States Environmental Protection Agency and the National Institute for Occupational Safety and Health have determined that environmental tobacco smoke and side stream smoke are carcinogenic. Secondhand tobacco smoke also can lead to increased risk of heart disease in non-smokers. Tobacco smoke is also a major contributor to indoor air pollution and a significant health hazard.

Section 1. Provisions.

- 1.1 The use of all smoking tobacco products, simulated tobacco products (electric cigarettes, etc.), natural/artificial tobacco-like substitutes, devices (Hookah, etc.), smokeless tobacco, or tobacco-like substitutes (particularly, spit-and-chew varieties) is prohibited in all University buildings, campus facilities (e.g. sports venues, parking lots, grounds), and off-campus locations such as the Highlands Center (and adjacent parking area) which are under the control of West Liberty University.

Repeated violations could lead to student expulsion or employment termination as appropriate.

3.2 (a) Contracted service providers, contractors, and other vendors will be required to comply with this policy as a contractual obligation.
